EXPERIENCE (WORKSHOP)

Microsoft Learn Student Ambassadors: Web Development **21th May 2024 – 28th May 2024**
[Aadi foundation](#) , Delhi (NCR)

- HTML: The backbone of web content.
- CSS: Styling websites to make them visually appealing.
- JavaScript: Bringing interactivity to web pages.
- React: Building dynamic and responsive user interfaces.
- GitHub: Version control and collaborative development.

PROJECTS

Bg Removal ([Project Link](#))

- Optimized performance with Vite for fast development and builds.
- Integrated Clerk for authentication, enabling secure user sign-ups and logins.
- Designed a responsive and modern UI using Tailwind CSS for an enhanced user experience.

Game Listing ([Project Link](#))

- Developed a responsive game listing web app using React.js and Tailwind CSS, ensuring a smooth and modern UI.
- Integrated a public game API to dynamically fetch and display game details like title, genre, ratings, and images.
- Added Dark Mode toggle using Tailwind's dark mode classes, improving accessibility and user preference handling.
